

## THE TACTICIAN

*A Carcassonne Central expansion by Gwommy*

You strive to build as quickly as possible, yet your enemies are keeping up with your strategies. It's time to try some different tactics.

### EXTRA PIECES

- 6 Tactician Tokens (one for each player)

### ADDITIONAL RULES

#### Preparation

In addition to the usual preparations for the game and any expansions that you may be using, set aside the Tactician tokens. They should be within reach since they may be obtained by the players throughout the game.

#### 1. Place a Tile

Place tiles as in the normal rules of the game or any other expansions that you may be using.

#### 2. Deploy a Follower

When deciding to place a follower or perform any equivalent action, you may instead choose take the Tactician token of your color and put it in your supply. Once a player has a Tactician token, he may not obtain another one.

During an opponent's turn<sup>1</sup> when you have a Tactician token in your supply, you may turn it in and use it to place a follower on the tile that your opponent just placed<sup>2</sup>. This placement takes place after your opponent places a follower (or similar action, or chooses to pass) and before his scoring phase<sup>3</sup>. As per the normal rules, you may not place a follower on a feature that has already been claimed, it must be an unclaimed feature on the same tile. If more than one player wishes to use his Tactician token, then priority goes to the player with the least amount of points. If there is a tie, then it goes to the player closest to the current player's left. This may result with multiple followers on a single tile.

#### 3. Score

Scoring is not affected whether a player has a Tactician token or not.

---

<sup>1</sup> You may not use the Tactician token during your turn.

<sup>2</sup> The Tactician token may not be used to place a follower in the City of Carcassonne, to place tower or bridge pieces, nor to move the fairy.

<sup>3</sup> If playing with the Princess and Dragon expansion, then the follower must be placed before the dragon piece moves.

## Final Scoring

At the end of the game, you do not score any points for having a Tactician token in your supply. You may not use your Tactician token during the final scoring of the game.
